

OIPI Planning Update VTrans2040

**MPO/PDC Winter Meeting
February 5, 2014**

**Presented by: Kelli Nash
Multimodal Planning and Policy Specialist**

HISTORY OF VTRANS UPDATES

1. Conduct long-range statewide transportation trend assessments

- Transportation impacts of future economic generators, demographic groups, environmental variables, etc

2. Establish Guiding Principles

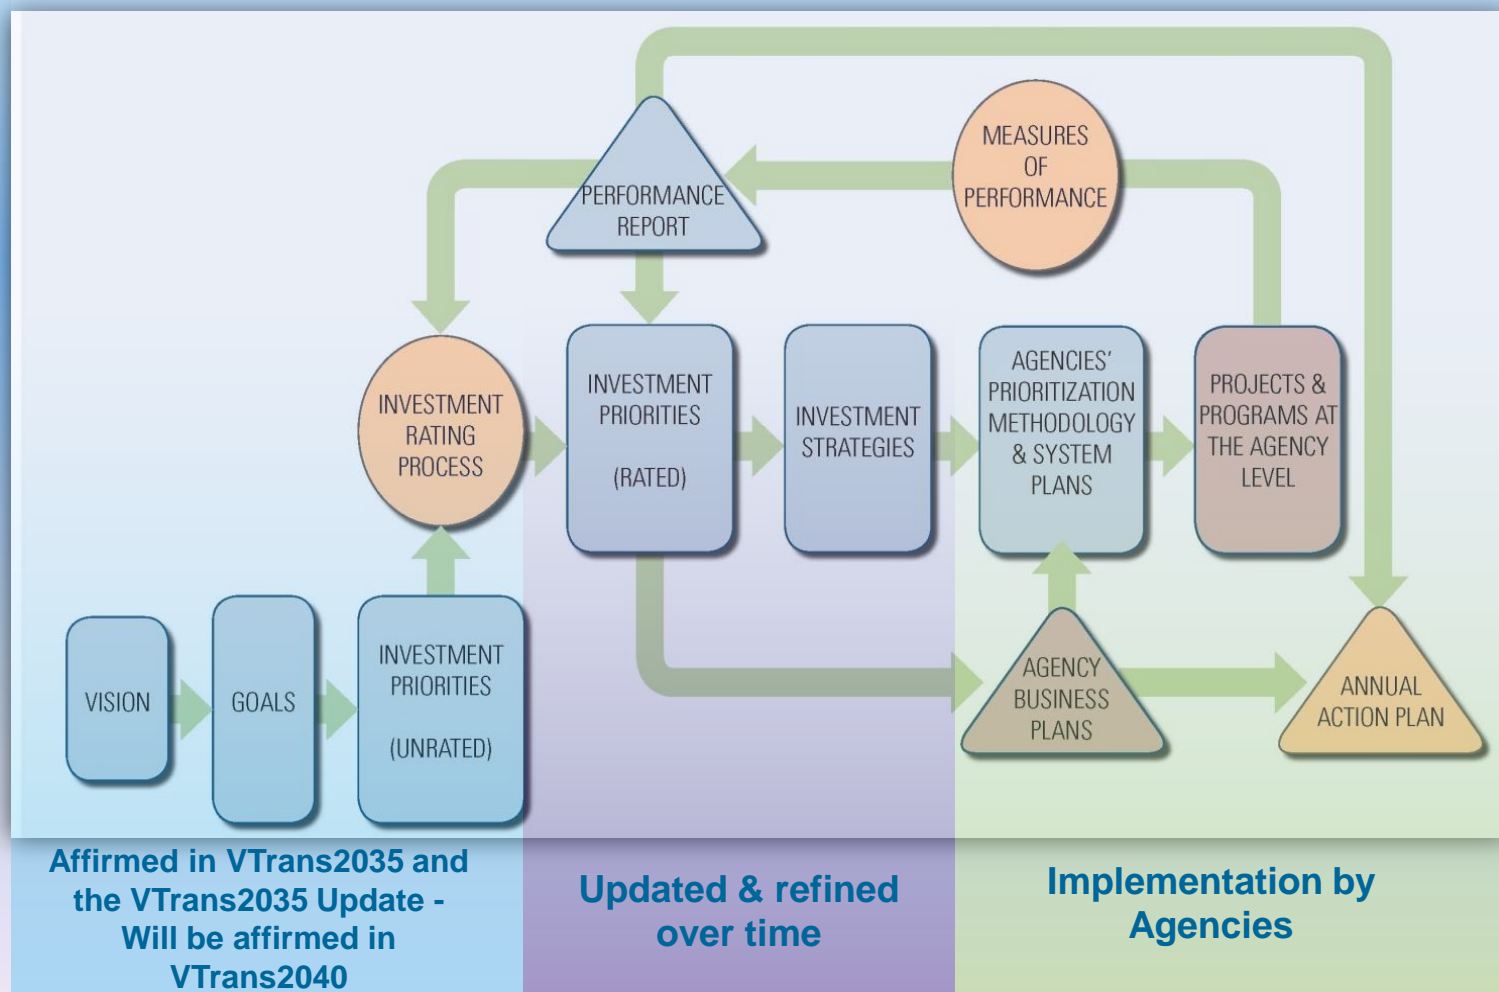

- Based on new Administration policies & stakeholder input

3. Refine Vision & Goals

- Based on trends & stakeholder input

End Product: 25-Year Vision, Guiding Principles, Goals

Implementation of the PBPP Process

VTrans Trend Assessments

Types & locations of **communities** (rural and urban) in which people of different generations live, work, and play

Ways in which different types of **people** will get to work, shopping, health care, school, social, recreational, and other typical activities

Types, locations, & travel demands of major **economic generators**

Freight movement patterns and modes

Uses of alternative **energy** sources for transportation

Effects of evolving transportation **technologies** on system capacity

Interactions among evolving factors and natural, social & built environments

What About MAP-21?

Positioning the Commonwealth to Embrace MAP-21 Requirements

New VTrans2040

New Freight Study

→ To be incorporated into VTrans2040

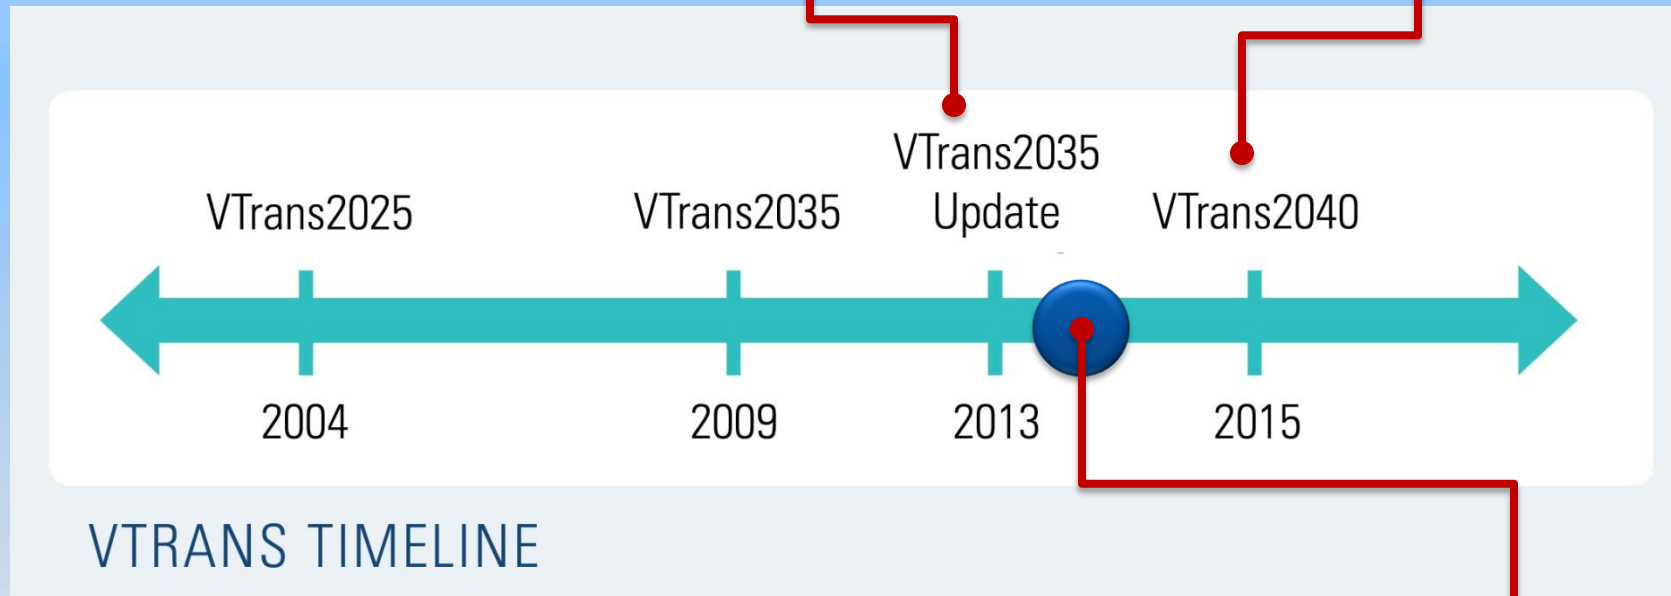

Strengthening Performance-Based Planning

→ Updating Performance Report
